

2020

****NOTICE****

All Ingalls Water Customers

Ingalls Water Company will be

FLUSHING HYDRANTS

**Through the month of
OCTOBER**

(as weather permits)

Hydrant flushing is to maintain the integrity of the water line network. Keeping water lines clean from stagnating sediment and rust.

A reminder when flushing in your area, you may experience discolored water or low pressure. When hydrant flushing is finished, water should become normal again.
